Mr. Rich Gannon
NCDENR-Water Quality Planning Branch
1617 Mail Service Center
Raleigh, NC 27699-1617

Mr. Gannon:

I am writing to comment on the proposed Jordan Lake rules. I feel that leaving the 2016 date for upgrades to wastewater treatment plants puts an undue risk on the lake and the wildlife that increasingly depends on it due to the excessive development in the area and the corresponding degradation of other habitat. I encourage you to return the deadline for wastewater treatment upgrades to the original date of 2011.

Jordan Lake will continue to be an important source of drinking water. Please ensure that the lake is cleaned up as soon as possible.

Regards,
Heather Payne
